HONGKONG, AUGUST 8th, 1910.

WHAT for many years past we have been  
accustomed to designate "the plague  
season" in Hongkong is practically over.  
From time to time we have briefly com-  
mented on the freedom of the Colony this  
year from a scourge which has almost  
annually since 1894 claimed its victims in  
the Colony by the hundreds and thousands.  
Since the commencement of the year only  
twenty-three cases of bubonic plague have  
been reported, and almost a fourth of these  
would seem to have been cases "imported"  
from neighbouring ports. These figures do  
not exactly constitute a record, but they  
come very near it. Since bubonic plague  
made its first appearance in Hongkong—in  
the year 1894—there have been only two  
years previous to this in which the number  
of victims has been below a hundred. More  
often than not the number of cases has  
exceeded a thousand per annum, and not  
since 1897 has the Colony enjoyed such  
immunity from plague as in the present year.  
In 1897 there were only 21 cases for the  
whole year, and of these 15 occurred before  
the end of July. A feature of these plague  
epidemics has been that they have died out  
completely in the autumn, and, judging from  
past experience, it may not, therefore, be too

soon to congratulate the Colony on an im-  
munity from this terrible scourge such as it  
has not enjoyed for the past thirteen years.  
Doubtless when the time arrives for the  
preparation of the annual official reports,  
our health officials will offer some explana-  
tion of this improvement. They will,  
perhaps, be able to tell us by an examination  
of the plague statistics in the light of the  
meteorological records of past years whether  
the exceptionally dry spring this year was  
responsible for the absence of an epidemic,  
or whether it can be set down entirely to  
the progress made in rendering domestic  
buildings rat-proof, by filling in rat-  
runs with cement and repairing the  
ground surfaces of houses, combined with  
the fact that the Chinese have so largely  
adopted the advice of the Government to  
keep cats as a plague preventive. There  
are those who, in the light of past experience,  
will discourage my faith in a permanent im-  
provement; they can point to the fact that  
while in 1895 there were only 45 cases in  
the Colony, in 1896 there were 1,204; and  
to the further fact that the figure of 21 for  
1897 was followed in 1898 by a total of  
1,325. They may reasonably ask how it  
is possible in face of these figures  
to feel confident that the authorities  
have at last got the better of the scourge.  
We cannot dispute the logic of the conten-  
tion, but there are features associated with  
the improvement in the mortality statistics  
during the last two years which we hope  
and believe warrant a more optimistic view  
of the future in this connection. The final  
Report of the Indian Plague Commission  
in 1908 seems to have been of great value  
to the sanitary administration in Hong-  
kong, and it is at least a hopeful sign that  
the great improvement shown in the plague  
returns for 1909 (124 as compared with  
1,037 in 1908) has been so well maintained  
this year, which has yielded but 23 cases to  
date, and about one-fourth of these, as we  
have already mentioned, have come into  
the Colony from neighbouring ports. The  
Sanitary Board and the Government have  
certainly deserved success in their campaign  
against plague, and we trust the future  
will show that the improvement in the  
mortality returns of the past two years has  
been due not so much to the vagaries of the  
weather as to the thoroughness and efficiency  
of the preventive measures adopted by the  
sanitary authorities.

Two men have been arrested in connection  
with the murder of a native near Tai-po on July  
16th.

Mr. James Walker, manager of the Dairy  
Farm, has left for a three months' trip in  
Australia.

Mr. G. H. Wakeman has been appointed to  
act as Registrar of Trademarks during the  
absence on leave of Mr. A. G. M. Fletcher.

It is reported that Prince Tsai Hsun proposes  
to send one hundred students to England, Ger-  
many, France and Japan to study naval affairs.

We have received prints of a series of  
photographs taken by Mr. Mee Chung on the  
occasion of the railway inspection last Wednes-  
day.

The total output of the Chinese Engineering  
and Mining Company's three mines for the week  
ending 25th July, 1910, amounted to 27,387.97  
tons and the sales during the period to 15,731.89  
tons.

At the Magistracy on Saturday the seven  
men arrested by Sergeant Gordon at Cheung-  
chau on suspicion of being escaped pirates from  
Colowan appeared before Mr. E. R. Hallifax,  
and were remanded.

His Majesty the King has not been advised to  
exercise his power of disallowance with respect  
to Ordinance No. 6 of 1910, entitled—An  
Ordinance further to amend the Merchant  
Shipping Ordinance, 1899.

Louis Comar, of the Cosmopolitan Hotel,  
appeared at the Magistracy on Saturday on a  
summons charging him with selling rum which  
was not up to standard. His Worship (Mr. J.  
R. Wo.) dismissed the summons.

At the Magistracy on Saturday Mr. E. R.  
Hallifax sentenced a native to one month's  
imprisonment and six hours' stocks for stealing  
two clocks and a waist belt from No. 9, Stanley  
Terrace, Shaokwan.

Yesterday morning Detective-Sergeant Grant  
seized between 300 and 400 lbs. of dynamite in a  
coolie contractor's matchbox at Mt. Davis. The  
storage of explosives in matchboxes is a very  
dangerous practice, having regard to the  
numerous fires which occur in these structures.

Mr. E. A. Irving has been appointed to act as  
Registrar-General during the absence on leave  
of the Hon. Mr. A. W. Brevin. The same  
gentleman has been appointed provisionally, and  
subject to His Majesty's pleasure, to be an official  
member of the Legislative Council.

An extract of meteorological observations made  
at the Hongkong Observatory during the month  
of July shows that the average maximum tem-  
perature for that period was 87, and the average  
minimum temperature 78.8 degrees. Through-  
out the month we had 261.9 hours of sunshine  
while the rainfall registered 13.095 inches.

The King's Exequatur empowering Mr. G.  
E. Anderson to act as Consul General for the  
United States at Hongkong has received His  
Majesty's signature.

His Excellency the Officer Administering the  
Government has given his assent, in the name  
and on behalf of His Majesty the King, to the  
following Ordinances passed by the Legislative  
Council:—Ordinance No. 18 of 1910.—An  
Ordinance to amend the Crown Lands Resump-  
tion Ordinance, 1900, and to make special pro-  
vision for the Resumption of Crown Lands of  
small value for public purposes; and Ordinance  
No. 19 of 1910.—An Ordinance to authorise  
the Appropriation of a Supplementary Sum of  
Three hundred and fourteen thousand five  
hundred and thirty-three Dollars and thirty-two  
Cents, to defray the Charges of the Year 1909.

Returns of the average amounts of bank notes  
in circulation and of specie in reserve in Hong-  
kong, during the month ended 31st July, 1910,  
as certified by the managers of the respective  
banks, are as follows:—

On Wednesday last the Eastern Scotia Masonic  
Lodge held their third whist drive, and it met  
with even more success than either of the former  
ones, eighty persons sitting down and spending  
a most enjoyable evening. The prize-winners  
were:—Mrs. Bennet (1st prize ladies), Mrs.  
Duncan and Mrs. Alps, and Messrs. Abraham  
(1st prize), Wilcox, Beauchamp, Ramsay, Gib-  
son and Cousins. The first prize for ladies was  
kindly presented by a Past Master of the Lodge,  
and the first prize for gentlemen was presented  
by a member of the Lodge. The former was a  
handsome silver powder-box and the latter a  
beautiful silver Chinese war junk. The ar-  
rangements were in the hands of the same com-  
mittee as before, to whom all praise is due for  
the splendid success attending these whist  
drives.

The Government of the Philippines has decided  
to withdraw its appeal to the Supreme Court in  
the *habeas corpus* proceedings in the cases of the  
three Chinese ordered to be released by Judge  
A. S. Crossfield, of the court of first instance.  
These Chinese were three of the six deportees  
who made their way back to Manila from Amoy  
last March, and whose cases were first taken up  
by the special board of inquiry of the Bureau of  
Customs. This board was composed of three  
men, two of whom, constituting the majority,  
decided that these men had a right to land and  
remain in the islands. The minority member of  
the board dissented from this verdict and took  
an appeal to the Collector of Customs, Colonel  
H. B. McCoy. After considering the case for  
some time, the collector rendered his decision,  
upholding the minority member of the inquiry  
board. A writ of *habeas corpus* was then prayed  
for by the attorneys of these Chinese and granted  
by Judge Crossfield, whereupon the three,  
who had been in the custody of the Collector of  
Customs all this time, were ordered to be released.  
The Government took an appeal to the Supreme  
Court, and it is this appeal which is now  
withdrawn.

## JAPANESE INFLUENCE ON INDIA.

The Calcutta correspondent of a London  
evening paper states that Japanese trade with  
India has gone up by leaps and bounds during  
the past five years. In one branch of the trade  
only—namely, matches—Japan bids fair to drive  
other competitors from the Indian markets.  
Nowhere is this so noticeable as in Burma, where  
Japanese matches have ousted the Swedish and  
Austrian product completely. How far Japan  
is moulding the thoughts of young Indians may  
be gathered from the avidity with which they  
study all things Japanese. In the Imperial  
library here the present writer has had an  
opportunity of seeing young Indians poring  
over books dealing with Japanese life. The  
leading newspapers and magazines in India  
devote a considerable space to the discussion  
of problems of Japanese life. While all well-  
wishers of India wish her success in the  
gigantic task of regeneration which she has  
set before herself, and welcome every move-  
ment which may contribute towards that end,  
it is necessary that young Indians should  
be warned of the dangers of trying to accom-  
plish the task of years in days. The Indo-  
Japanese Association can do yeoman service to  
India by directing the youthful energies of its  
Indian members into right channels and pro-  
tecting them from the insinuations of the  
Extremists. For there can be no doubt that  
the Extremists are leaving no stone unturned  
to preach their propaganda everywhere, in  
Tokyo and New York as well as in London,  
Genoa, and Paris. Only the other day one of  
the rabid publications, by means of which the  
Extremists hope to subvert British rule in India,  
reached Calcutta from Tokyo. It is very likely  
that the pamphlet was printed on the Continent  
or in America and sent to Tokyo for distribu-  
tion in India, as the Extremists are aware that  
the authorities keep a close watch over  
suspicious-looking documents emanating from  
their headquarters in Europe. The Indo-  
Japanese Association has, of course, no con-  
nection whatever with the Extremist organiza-  
tions in Europe and America. It can, however,  
do much good to open the eyes of its Indian  
members to the fallacies of Extremism.

## LATEST STEAMER MOVEMENTS.

The C. & M. str. *Bubi* left Manila on the 6th  
inst., and is due here to-day at 4 p.m.  
The I.G.M. str. *Kieki* left Shanghai on the

The Yokohama Office of the C.P.R. Co. has  
received a wireless message from the I.M.S.  
Express of China, which left Vancouver on the  
evening of the 27th ultimo, reporting all well,  
and that the Commander expects to reach  
Yokohama at 6 p.m. on the 10th instant. At the  
time the message was despatched the steamer  
was 1,450 miles distant from Japan.

## CHINESE POLICY IN TIBET.

LONDON, August 6th.

The "Temps" (Paris), discussing the  
Tibetan situation, says that China is  
pursuing a policy which to all ap-  
pearance is disguised. A protectorate  
of "the roof of the world" is still the  
object of imperialist ambitions, but  
that imperialism is Chinese, and it is  
doubtful whether it is not too late to  
avert consequences disagreeable to the  
neighbouring Powers.

## AEROPLANES FOR JAPAN.

LONDON, August 6th.

Reuter's correspondent at Berlin  
reports that a Japanese Commission at  
present in Berlin has completed  
negotiations for the purchase of aero-  
planes.

It has been arranged that twenty-  
five Japanese officers shall receive  
instruction in Germany under the  
military aviator, Engelhardt.

## "GRAFT" IN AMERICA.

ALLEGATIONS AGAINST SENATORS AND  
CONGRESSMEN.

LONDON, August 6th.

At a Congressional inquiry with  
regard to the sale of Indian lands, at  
Oklahoma, Congressman Gore and  
Senator Greagher testified that they  
had been offered bribes by a promi-  
nent Republican not to oppose a thirty  
million dollar land deal whereon the  
promoters were to get 10 per cent.

They named certain senators and  
congressmen and also Vice-President  
Sherman as being interested in the  
deal. Mr. Sherman denies the  
allegation.

BRITISH DIPLOMATIC  
APPOINTMENTS.

LONDON, August 6th.

Sir George W. Buchanan, Minister  
Plenipotentiary at The Hague, has  
been appointed Ambassador at St.  
Petersburg; Sir Ralph Paget, Minister  
at Munich, has been appointed  
Minister at Belgrade; and Sir Vincent  
E. H. Corbett, K.C.V.O., Minister  
Resident at Venezuela, has been  
transferred to Munich.

BIG STRIKE OF GERMAN  
SHIPWRIGHTS.

LONDON, August 6th.

Ten thousand shipyard hands have  
gone on strike at Hamburg owing to  
the masters having refused to shorten  
the hours of work and to raise their  
wages.

Six thousand shipwrights at Kiel  
may join the strike.

CANADIAN PREMIER'S  
PROPHECY.

LONDON, August 6th.

Reuter's correspondent at Winnipeg  
telegraphs that Sir Wilfred Laurier,  
addressing the American settlers of  
the North-West, said—"You can do  
much to weld an offensive and defen-  
sive alliance between Great Britain  
and the United States, without the  
permission of which a single gun  
could not be fired in the world."

THE CROWN PRINCE OF  
GERMANY.

TOUR IN THE FAR EAST.

LONDON, August 7th.

Reuter's correspondent at Berlin  
reports that H.I.H. the Crown Prince  
of Germany has arranged to start in  
November on a tour to the Far East,  
touching at India, in order to study  
the conditions in the East.

THE RUSSO-JAPANESE  
AGREEMENT.

THE POSITION IN MANCHURIA "STILL  
OBSCURE."

LONDON, August 7th.

"The Times" in a leading article  
urges that though the Russo-Japanese  
agreement is welcomed as tending to  
the preservation of peace, the position  
in Manchuria is still obscure in some  
respects. It would be a great satis-  
faction to learn definitely the whole of  
the conditions under which the Jap-  
anese and Russian control of the  
railways will be exercised in future.  
The lack of such a statement is the  
sole cause of the fears occasionally  
expressed for the interests of third  
parties.

Moreover, "The Times" says, per-  
sons interested in the Chinchow-Aigun  
railway are entitled to be told how  
their scheme infringes Russo-Japanese  
rights.

The same mistiness applies to the  
Hankow-Canton and Szechuan rail-  
ways, regarding which China remains  
reluctant to carry out her under-  
takings.

EXPLOSION ON A BRITISH  
SUBMARINE.

LONDON, August 7th.

An explosion has occurred on the  
unfortunate submarine "A.I." at  
Portsmouth.

Lieutenant Regnart, Sub-Lieut-  
enant Stopford and four men were  
injured.

THE WORLD'S LARGEST  
WARSHIP.

LONDON, August 7th.

The monster cruiser "Lion," which  
has a displacement of 26,360 and is  
capable of a broadside of ten thousand  
lbs., has been launched at Devonport.  
She is the largest warship in the  
world, and will be fitted with eight  
13.5 guns.

CATHOLIC AGITATION IN  
SPAIN.

LONDON, August 7th.

The organisers of the Catholic  
demonstration in Spain, mentioned in  
Friday's telegram, have decided to  
abandon the demonstration in view of  
the opposition of the Government,  
and to publish a manifesto on the  
subject.

French crops have been destroyed by the  
recent storms.

## THE SUNGARI RIVER.

RUSSO-CHINESE NEGOTIATIONS.

Peking, Aug. 1st.

The negotiations in regard to the Sungari  
River navigation question have been con-  
cluded, but the agreement has not yet been  
signed. China's claim for a free trading  
zone of fifty versts on each side of the  
Russo-Chinese boundary only affected goods  
emanating from opposite zones and has  
been abandoned. It has been decided that  
the goods from the whole of each country  
should be free in the other's zone, by a  
rebate following upon proof of consumption  
there. China concedes the reduction of a  
third of the local taxes on beans  
and grain. In connection with the tonnage  
dues Russia quoted Articles 15, 16 and 18  
of the Treaty of 1881. It was finally decided  
to institute regular freight dues, which are  
expected to increase China's revenue by  
twenty-five per cent. China is to provide  
tugs equally for all vessels.

It is understood that both Governments  
are pleased at the satisfactory ending of the  
negotiations.

## AN OPIUM INCIDENT.

A merchant named Cheng obtained permission  
to open an office for the sale of opium at Swatow.  
The security money was deposited and the  
merchant was looking forward to enjoying  
handsome profits when suddenly the chief  
of the Swatow police sent a posse of constables to  
seize the office and confiscate it in the name of  
the law. The shop was sealed with the official  
seal and the folds haled off to prison. The money  
in the office safe and the stock of opium was also  
seized and carried off by the police. The  
merchant naturally was in great trouble over  
the action of the police and has appealed to the  
Taotai of Police in Canton for restitution of his  
shop and goods.

## CENSUS TROUBLES.

Some days ago I reported that trouble had  
occurred in the Sun On Prefecture over the  
taking of the census. It will be remembered  
that the women resented the numbering of the  
houses and the affixing of notices and are imbed-  
ded in great numbers to oppose this action. I have  
since heard that the magistrate in charge of this  
district, was guilty of gross cruelty to the women,  
who acted as leaders of this disturbance. Now  
news comes that in the Tai Pang village of the  
same district another disturbance has broken  
out over the census. One of the local gentry  
had charge of the census affairs and the villagers  
were so incensed with him that they burnt his  
house to the ground. Quite near this village is  
a military camp, and people are wondering why  
the soldiers did not interfere. Trouble regard-  
ing the census is reported from the Lo Ting  
Prefecture, where I hear that serious rioting has  
occurred. The Viceroy has sent an official to  
investigate the Sun On troubles.

## AN EMPEROR'S BIRTHDAY.

The day before yesterday was the anniversary  
of the birth of the Emperor Kwong Si, but in  
the city no celebration in honour of the event  
took place, although it is customary to honour  
the birthday of a deceased monarch. Last year  
no theatrical performances were allowed on that  
day, no animal was allowed to be slaughtered,  
and a memorial service was held in the Kwong  
Fu Hok Hung, which was largely attended by  
the officials and gentry, but this year Kwong  
Si appears to have been entirely forgotten.

## MILITARY MATTERS.

The Viceroy some days ago received orders  
from Peking to forward statistics regarding  
the number of the newly-trained troops on duty  
near the city. As I formerly reported, large  
numbers of these troops were disbanded and  
sent home after the troubles which occurred at  
the New Year. The Director of the Military  
Bureau has furnished the Viceroy with the  
following particulars. He says that 1,338 men  
were discharged for complicity in the rioting,  
and 1,227 men applied for their discharge  
and were given leave to quit the service. Of  
the 1st Regiment only 120 soldiers remained  
after the troubles, of the 2nd Regiment 1,198,  
and of the 3rd 370. Recruiting is now actively  
going on, but the government is finding some  
difficulty in filling up the vacancies in the  
ranks.

## EXECUTION.

A man was yesterday taken from the Nam  
Hoi Gao and beheaded on the Execution  
Ground. This criminal was a noted robber,  
and the last of his many crimes was to kidnap  
the three sons of a wealthy merchant and hold  
them to ransom. He then took refuge in  
Hongkong, but was discovered by detectives  
and handed over to the Chinese authorities.  
According to the procedure observed in all these  
cases extradited from British territory the  
British Consul was invited to be present at the  
execution.

## RAID ON A GAMBLING HOUSE.

In a place called Hung Sing Pak Yuet a  
gambling house for the exclusive use of women  
has for some time been established by some of  
the Luk family. It is stated that several wo-  
men have committed suicide over the losses  
sustained in this place, and this coming to the  
ears of the police a raid was determined upon.  
However, the proprietors of the den got to  
hear of the proposed action of the police, and  
when the latter arrived they found the house  
vacant. Several gambling appliances were  
discovered and confiscated by the police.

## RAISING FUNDS.

The officials in charge of the Lo Ting  
Prefecture are at a loss to know how to obtain  
enough money to carry out the local adminis-  
tration of government. They have hit upon  
the plan of raising money by levying a tax on  
live stock. A notice was consequently issued  
that those who owned cows should pay 40 cents  
for each animal to the authorities, those who  
owned pigs 20 cents for each, while those who  
possessed fowls or ducks were to pay 1 cent  
for each. As nearly all the people in this  
district are farmers there has been a great out-  
cry against this proposal, and unless the tax is  
withdrawn there is likely to be serious trouble.

## PRATAS ISLANDS.

The work of exploiting the Pratas Islands  
is busily proceeding under the direction of  
Prefect Te'oi Hong. This gentleman, who  
acts under orders from the Taotai of Industries  
reports that the islands are rich in deposits of  
guano, which is henceforth to be dug and  
exported. Two Japanese, experts in guano  
working, have been engaged at monthly sal-  
aries of \$350, while a large gang of coolies  
at a monthly wage of \$10 are shortly to be  
taken to the islands. Prefect Te'oi, who is an  
indefatigable worker, has hitherto received no  
emolument for his services, but on the recom-  
mendation of the Taotai of Industries he is now  
to receive an allowance for expenses.

38,400 tons Japanese, 9,500 tons Hongay, 4,000 tons North China, 2,400 tons Borzeo, and 5,000 tons Manchuria. Quotations according to Messrs. Hughes & Mough's circular areas follow:—

## **ATLANTIC AIRSHIP.**

OPTIMISM IN AMERICA.

In America, and more particularly Atlantic  
 City, New Jersey, and the Metropolitan City of  
 New York, extraordinary interest has been  
 aroused by the announcement of the Trans-  
 atlantic airship flight to be attempted in summer  
 under the auspices of *The Daily Telegraph* and  
 the *New York Times*. It is believed in New  
 York that Mr. Wellman's plan, given the fair  
 conditions which usually prevail during the  
 summer of the Transatlantic route, will have  
 an excellent chance of success.

That a dirigible will, in the course of time,  
 cross the ocean from America to England is  
 believed to be an absolute certainty, and  
 whether the present expedition is destined to  
 success or failure, it is realized that the practical  
 experience resulting from the varied and exten-  
 sive tests to be made here during August, pre-  
 liminary to the great effort to cross the Atlantic  
 in September, will be of enormous value. The  
 difference between the balloon *America* and the  
 air-liner of the future will probably be as vast as  
 the difference between the little caravel in  
 which Columbus sailed for the New  
 World and the Aerogatic Condor of the  
 present day; and because, in Transatlantic  
 aerial navigation, there must be a start of some  
 kind and from some place, members of the  
 Aeronautic Club whom I (says the New York  
 correspondent of the *London Daily Telegraph*)  
 have consulted in New York are saying to-day,  
 "Why not here, and why not now?"

Much space is devoted to a discussion of the  
 project which is risk by which it is attended,  
 the thrilling episodes by which it is accom-  
 panied, and, incidentally, it is pointed out that, while the courage, resourcefulness,  
 and ingenuity of Messrs. Wellman and Van-  
 man are praised, there is a hearty tribute also  
 rendered to the journalistic combination which  
 made the enterprise possible.

Atlantic City, the Brighton of the Eastern  
 Coast, where the leading balloonists and aero-  
 planists are assembled in convention, is greatly  
 elated. Here preparations have been made by  
 the Aero Club to build a hall to house the air-  
 ship. This structure will be 250ft long, 80ft  
 wide, and 80ft high, and will be finished within  
 two weeks. Eighty tons of sulphuric acid and  
 60 tons of iron turnings, required for generating  
 the hydrogen, have been delivered, and the  
 hydrogen gas apparatus sent from Paris, will  
 arrive next week.

In Atlantic City the opinion is expressed that  
 Wellman and his associate have more than an  
 even chance of success, provided that the plan  
 for securing automatic equilibration proves  
 satisfactory. Dr. Albert Zahn, a figure of  
 national importance in American aviation has  
 pointed out that the atmosphere at a distance  
 of a mile above the earth's surface, has quite a  
 steady velocity, generally in an easterly direc-  
 tion, and he sees no reason why the *America*, if  
 it travels high enough, should not be wafted  
 along by breezes which have been known to  
 attain a velocity of 50 to 100 miles an hour.

"Nearly half a century ago," continued Dr.  
 Zahn, "America's pioneer balloonist, John  
 Wise, made every preparation for a free balloon  
 voyage from New York to Europe; but this  
 voyage was finally abandoned, owing to the  
 faulty structure of the balloon designed for the  
 purpose. With the improved modern construc-  
 tion, however, of rubber-coated balloons, which  
 lose hardly more than one per cent. of gas in  
 twenty-four hours, it should be possible to cross  
 the Atlantic even without motive power. For  
 still better reasons, therefore, it should be  
 feasible to make that voyage in a good motor  
 balloon, whose speed can be added to that of  
 the upper aerial current at an elevation of, say,  
 one mile, and whose consumption of fuel would  
 balance the loss of gas due to leakage."

Mr. Augustus Post, who has achieved national  
 fame as a balloonist, said it was an  
 exceedingly good idea in these days, when  
 aeroplanes occupied so much attention, to show  
 the public that dirigibles had a field of at least  
 equal, and probably much greater, importance.  
 It was certain that a dirigible, and not an aero-  
 plane, would first cross the Atlantic, and the  
 sooner it was started the better it would be  
 for everybody devoted to the art and science of  
 aerial navigation. The *America's* trip, whether  
 a complete success or not, could never be a  
 complete failure. It would furnish a splendid  
 opportunity of collecting meteorological condi-  
 tions over the Transatlantic route, regarding  
 which much uncertainty existed, and this would  
 in itself justify the proposed journey.

"It," said the speaker, "the balloon has suf-  
 ficient buoyancy, i.e., if its gas reservoir retains  
 the hydrogen long enough, there is absolutely  
 no reason why a free or dirigible balloon should  
 not drift across the ocean by harnessing the  
 winds. With an 80 or 200 horse-power motor  
 to help it, it seems to me the chances for suc-  
 cess are very bright. I think the question of a  
 balloon is largely one of size, and as this is one  
 of the largest ships that has ever been made, we  
 ought to look for success and some very interest-  
 ing surprising results."

Mr. Henry Neely, chairman of the Committee  
 of the National Council of the Aero Club of  
 America, is equally sanguine.

Captain Thomas Baldwin, whose knowledge  
 and practical experience of dirigibles is exceeded  
 by no other American aeronaut, tells me that  
 he believes the Transatlantic trip is entirely  
 feasible, bearing in mind the size of the airship  
*America*, and the tests already made by Messrs.  
 Wellman and Vaniman.

"It seems agreed that there is an easterly  
 trend to the winds across the Atlantic in  
 August and September," said Captain Baldwin,  
 "and that's half the battle. If Mr. Wellman,  
 Mr. Vaniman, and their associates test their  
 dirigible thoroughly before leaving this side of  
 the ocean, and they themselves learn the intricacies  
 of their task, as doubtless they will, I  
 believe they'll win."  
 "If the *America's* gas reservoir is made properly  
 and retains its buoyancy, if the two  
 motors to be installed do their work, and if  
 the winds break even, the trip certainly should  
 span out all right. In the first instance, the  
 chances are in favour of success, for, with the  
 keel of the car being used as a gasoline  
 tank, as the gas-bag loses its hydrogen from  
 leakage, the gasoline will be consumed at the  
 ratio, and thus ease the strain on the gas reser-  
 voir to the proper degree. Since there are two  
 engines, there will be no need to work either  
 one to its limit, and that will ease the strain  
 on them—the kind of strain that several times  
 put Zepplin out of business; and, since the  
 prevailing winds are most likely in their favour,  
 the *America's* crew need not run their engines  
 probably more than half-speed. With a fair  
 degree of luck, I don't think the danger is any  
 greater than in a trip across land, and I for  
 one wouldn't mind going with Wellman."

In the meantime, work is steadily progressing  
 at Atlantic City on the shed to house the great  
 airship, and the preparations generally, greatly  
 interest the tens of thousands of visitors at  
 that popular resort.

## **GERMANS IN PALESTINE.**

One of the most important and useful estab-  
 lishments for the development of German  
 influence in Palestine and Syria, says the Cairo  
 journal, *Le Progrès*, is the Schneller Institute  
 at Jerusalem, where more than 500 children,  
 mostly orphans, receive a good education, strictly  
 on German lines and in the Protestant faith.  
 It appears, however, that among these children  
 are a good number of Roman Catholics and  
 about a hundred of young Maronites. Recently  
 a fire destroyed the upper story of the building,  
 and telegrams were immediately received  
 from Germany ordering the repair of the damage,  
 which was estimated at £3,000, and it was also  
 stated that the Emperor had placed the  
 Mount of Olives at the disposal of Herr  
 Schneller until the orphanage had been rebuilt.  
 Commenting upon these facts, the Jerusalem  
 newspaper, *La Verité*, says: "Our readers  
 should find here a useful lesson in the national  
 solidarity and union of the German people. See  
 how they reply immediately to the cry of  
 distress! Germany will never permit her  
 influence in Palestine to be weakened or to  
 suffer any loss. If an important member of the  
 German community dies, he is succeeded by  
 another who is equally if not more capable. If  
 a German establishment is destroyed it is certain  
 that another, larger and more magnificent, will  
 be erected in its place."

**Healthy Children**  
 Can only be reared by giving suitable nourishment. If unable to feed your child, the proper substitute is a food that corresponds in all respects with human milk. The "Allenburys" Milk Foods are so prepared as to remove the difference between cow's milk and human milk, and are most easy of digestion. They are alike suitable for the delicate and robust, and, when used as directed, form the best means of rearing a child by hand. The No. 1 Milk Food may be given alternately with the natural food without fear of causing digestive disturbance.

**HINTS TO DECORATORS**

FOR USING

**Hall's Sanitary Washable Distemper.**

To Mix for use, add about one pint of water to 5 lbs. of Distemper and stir to the consistency of a good thick cream. (These quantities are only approximate and judgment must be exercised in the mixing.) If the Distemper has become stiff, hot water should be used, as it mixes more readily. Whiting or Lime should be washed off the walls or ceiling before applying the Distemper. Wall papers may be painted without removing them, if the pattern is not too prominent and if the paper contains gold, but two coats will probably be required.

When walls are very porous or repaired, causing too much or unequal suction, we recommend a coat of size before using the Distemper. This prevents suction, and the Distemper, when dry, is more washable than if otherwise would be. For very damp walls give a first coat of "SISCO" Damp Resistor, also apply this to all damp patches and to places where the lime or salt is working through the plaster.

White Distemper No. 11 is made for ceilings and is not quite so washable as the other colours. When necessary to lighten any of the shades, Cream (No. 17) should be used for mixing instead of white.

Dry colours must not be used for altering the shades, as they take away the binding properties of the Distemper and do not mix evenly.

All shades marked \* by the side of the numbers in Colour Book and on the show-cards, may be used for new plastered walls. Any other shades should not be used on damp plaster.

The Distemper should not be mixed too thick, one coat is usually sufficient even on new work, and will give a result equal to two coats of oil paint.

Three weeks after application, but not before, the paint can be washed. This operation should be done with a sponge wetted with tepid water and passed gently over the wall.

JUST THE ROOFING MATERIAL REQUIRED IN HONGKONG.

**ASBEST-CEMENT PLATES "DURABILIT"****HAVE THE FOLLOWING ADVANTAGES:—**

- Considerable and lasting elasticity.
- Extraordinary firmness and resisting power against pulling, pushing or punching.
- Absolutely weather and fire-resisting and perfectly waterproof.
- Perfectly even surface.
- Non-heat-conducting.
- Very small specific weight.
- Lighter than any other material.
- Does not crack or lose its colour.
- Very pleasing appearance.
- EASILY AND QUICKLY LAID,** a hammer being the only tool required.

On account of the special system of fixing the plates, they will stand the heaviest storms without the slightest damage.

A miniature sample roof, covered with the material, may be seen at our Office.

May also be used for a variety of other purposes, such as Ceilings, coverings of walls, tilling round ovens and stores, floorings, and particularly to cover the walls of Hospitals, Barracks Schools, etc.

For Prospectus, samples and all other information, apply to the Agents,
